

THIRD INTERNATIONAL CONFERENCE ON
ADVANCES IN ROCK MECHANICS

ISRM SPECIALIZED CONFERENCE

The banner features a photograph of a rock face on the left. The right side has a blue background with white text. The text reads "TUNIROCK 2026" in large letters, followed by "3rd International Conference on Advances in Rock Mechanics". Below this, it says "HAMMAMET - TUNISIA" and "09-12 April 2026". There are two logos: "ATMR" (Arabian Tunneling and Mining Research) and "ISRM" (International Society for Rock Mechanics).

THIRD INTERNATIONAL CONFERENCE ON ADVANCES IN ROCK MECHANICS

9-12 APRIL 2026

Dear Partners

On behalf of the organizing committee, I am delighted to invite you to participate to the International Conference on Advances in Rock Mechanics (TuniRock 2026) to be held in Hammamet, Tunisia, on April 9-12, 2026.

This Conference aims at bringing together researchers and engineers around the most recent advances in Rock mechanics and Rock engineering applications. The exciting program that the Tunisian Society for Rock Mechanics prepared includes technical and scientific sessions, keynote lectures, one-day workshops and technical field trips. We believe that you will also enjoy participating to post-Conference excursions in the region.

The participants will have a chance not only to discuss technical issues but also to socialize during the conference dinners and discuss future events. The attendance of experts in rock mechanics will result in formation of a very strong technical program on Rock mechanics advances and will also provide guidance for the next conferences.

With reference to the significance of this event, you will find below a file containing sponsorship options for your information. We will be proud of the participation of your company as one of our supporters.

Dr Salma SOUISSI
President, Tunisian Society for Rock Mechanics

DATES

Deadline of full paper submission: 31 December 2025

Deadline of Review process: 31 January 2026

Final Full paper: 15 February 2026

TuniRock 2026 Conference: 09- 12 April 2026

ORGANIZER

The Tunisian National Group of the International Society
for Rock Mechanics and Rock Engineering

CHAIRMAN

Dr Salma SOUISSI

President, Tunisian Society for Rock Mechanics

THEMES

- Properties of fractured Rock
- Geophysics in rock mechanics
- Rock mass strength and failure
- Nonlinear problems in rock mechanics
- Effect of joint water on the behavior of Rock foundation
- Numerical modeling and back analysis
- Mineral resources development: methods and rock mechanics problems
- Rock mechanics and underground construction in mining, hydropower industry and civil engineering
- Rock mechanics in petroleum engineering
- Geodynamics and monitoring of rock mass behavior
- Risks and hazards

SOCIAL PROGRAM

Archeological site of Carthage
Roman Amphitheater of El Jem
Aquatic Friguia Park
